

CRYSTAL STRUCTURES (C. Ari)

CUBIC

I AM

order

A cubic person knows only one point of view. Ratio and logic are overemphasized. Intuition, feelings and sensations are suppressed.

Inflexible and rigid. Everything is under control, regular and straight, black or white. Take it or leave it. They do not get affected from outside. Cubic is the only structure that does not bend light rays as they pass through.

Breakdown, crash, suicide.

Cubic crystals are stabilizing and grounding, excellent for structure and reorganization.

Aurum, Platinum, Arsenicum album, Ferrum, Fluorinum, NaCl, Diamond, Fluorite, Garnet, Pyrite, Lapislazuli. Arnica, Veratrum album. Syphilinum.

TETRAGONAL

I ANALYZE

dichotomy

A tetragonal person has a hidden inner and a perfect outer image. Analytical, spontaneous, adapted. Presentation. Fear of loss of image. Narcistic. Covering up/honesty. Hustler, takes over somebody else (=natural behaving). People who work out laws and rules. Politicians. Marketing.

Tetragonal crystals absorb and transform energy, they are excellent balancers and resolvers.

Stannum, Apophyllit, Rutil, Zirkon. Agaricus muscaris, Anacardium, Lykopodium, Tabacum, Thuja. Carcinosinum.

HEXAGONAL

I ACT

goal

The hexagonal person is consistent and determined. Performance, success, ambition, willpower, efficiency. Goal oriented. The secret ruler. Struggle with empowering, team worker, bullying/yielding in relationships, Male- female, Yin-Yang. To accept the facts.

Hexagonal crystals are useful for energy balancing and for exploring specific issues.

Beryllium, Nitrogenium, Graphites, Zincum, Osmium, Apatite, Aquamarine, Beryl, Emerald. Dulcamara, Pulsatilla. Lac equinum. DNA.

TRIGONAL

I THINK

idealism

Trigonal is a simple and straightforward lifestyle. Minimum effort - maximum success.

Imagination, idealism of reaching a goal. Family oriented. Proud and inflexible. Insecurity. Ungrounded/no protection. Self-possessed or totally upset, terrible fear, panic.

Trigonal crystals radiate energy, which is strengthening and protecting and have a balancing effect on the bio magnetic field. Black gems are extremely grounding and stabilizing (Onyx, black Turmalin).

Silica, Calcium carb., Calcite, Carnelian, Jasper, Crystal Quartz, Amethyst, Rubin, Sapphire, Tourmaline. Bryonia, Gelsemium, Rhus toxicodendron. Psorinum.

ORTHORHOMBIC**I FEEL****dependence**

In the rhombic lifestyle, everything seems to be in order, unless disappointments trigger a low mood. Deep feelings, but emotionally closed up, accommodating, sympathetic, social people, somehow very orderly, unsupported, without insight. The beast within.

Orthorhombic crystals store cleansing energies and bring clarity.

Sulphur, Chlorum, Bromum, Iodine, Antimonium crudum, Antimonite, Aragonite, Olivine, Pearl, Dumortierite, Topaz, Zoisite. Staphisagria, Opium, Medhorrinum.

MONOCLINIC**I MOVE****variety**

Variability, regular change. Hypersensitivity (electro smog, atmospheric changes).

Changeable mood. No balance. Spontaneous and hyperactive. Expressing and initiating.

Instability, extremes, self-expression, passion. Inspiration.

Monoclinic crystals support purification processes and cognition.

Phosphorus, Aventurine, Azurite, Malachite, Moonstone, Tiger-eye crystal. China, Coffea, Ignatia, Rhododendron. Apis, Lachesis, Naja, Tarantula, Falcon peregrin. Tuberculinum bovinum.

TRIKLINIC**I REACT****unpredictability**

The triclinic lifestyle is erratic, spontaneous and unpredictable, nothing is permanent.

Everything is clear versus completely confused. At the mercy of others. Problems in relationships, hates being patronized. The victim. Topsy turvy, emotionally reactive, alienated, disoriented. Has got to trust in life as it happens and to take all opportunities.

Triclinic crystals integrate energy and opposites and assist in exploring other dimensions.

Oxygenium, Petroleum, Amazonite, Labradorite, Rhodonite, Turquoise. Aconitum, Chamomilla, Diospyros Kaki, Stramonium. Asterias, Cantharis. Placenta.

AMORPHOUS**I TRANSFORM MYSELF****renewal**

The amorphous lifestyle is the most diverse, constant renewal, nothing repeats itself.

Unique, formless, unreal, confused, naïve. Chaos. dissociated, destructive, dissolution, creativity, free spirits, act and live, genius.

Amorphous crystals enable a free flow of energy, strengthen energy and promote development.

Hydrogenium, Helium, Neon, Alumina, Glass, Mercurius. Amber, Jet, Opal, Chrysopal turquoise, Obsidian, Pele's Hair, Moldavit, Saffordite. Belladonna, Hyoscyamus, Haliaetus leucocephalis. Luna. Spektrum. LSD, Alcohol.
